SECTION I
LISTENING COMPREHENSION

GENERAL DIRECTIONS

1. This section is designed to measure your ability to comprehend spoken English. There are three parts to this section with special directions for each part.

   Part One : Understanding Short Conversations
   Part Two : Understanding Longer Conversations
   Part Three : Understanding Short Talks

   Before you begin each part, carefully listen and read the directions as they are being read out.

2. Do not write anything in this test booklet. Put all of your answers on the answer sheet.

3. There is only one correct answer to each problem. Completely blacken the circle corresponding to the answer you choose for each question. If you change your mind about an answer after you have blackened the circle on the answer sheet, thoroughly erase your answer before blackening the circle of your new answer.

4. Try to answer every problem even if you are not sure of the answer. Your score on the test will depend on the number of correct answers that you have given.

PART ONE: Understanding Short Conversations

Directions: In this part, you will hear short conversations between two speakers. At the end of each conversation, a third person will ask a question about what has been said. Read the four possible answers in your test booklet and select the option that best answers the question.

For example:

On the recording you will hear:
Man : Why are you interested in learning traditional dances?

Narrator : Why does the woman want to learn traditional dances?

In your test booklet, you will read:
Because she wants to
(A) be famous

Since the correct answer is (D), blacken the letter (D) on your answer sheet.

Look at the example: A B C (D)

Now, let's begin with Part One.

   In your test booklet, you will read:
   (A) 5 days
   (B) 7 days

Section 3

READING COMPREHENSION

GENERAL DIRECTIONS

1. This section is designed to measure your ability to comprehend English reading passages. Before you begin, carefully read the directions given.

2. Do not write anything in this test booklet. Put all your answers on the answer sheet.

3. There is only one correct answer to each problem. Completely blacken the circle corresponding to the answer you choose for each question. If you change your mind about an answer after you have blackened the circle on the answer sheet, thoroughly erase your answer before blackening the circle of your new answer.

4. Try to answer every problem even if you are not sure of the answer. Your score on the test will depend on the number of correct answers that you have given.
Directions: In this section, you will read several passages that are followed by several questions. Read the four possible answers to each question, and select the option that best answers the question. Then, on your answer sheet, blacken the circle of your answer accordingly.

Example:

What we eat for breakfast has a big impact on the sharpness of our brain. Many of us feast on carbohydrates such as rice dishes in the morning. These starches increase the presence of a substance that helps us from reaching our normal morning energy peak. In other words, carbohydrates make us feel drowsy. Moreover, scientists now believe that a good breakfast features foods that are low in fat. Many of us unwittingly choose eggs, sausage, or bacon. These foods contain high fat and cholesterol and are slow to digest, diverting blood from brain and thereby reducing mental sharpness.

Question 1: What is the passage about?
(A) Foods that contain a lot of fat and cholesterol
(B) The content of carbohydrates that sharpen the brain
(C) How the brain reaches its peak performance
(D) The impact of breakfast on the sharpness of the brain

Since the correct answer is (D), you should blacken circle D.

Look at the example: A B C D

Question 2: The word "Moreover" in line 6 is closest in meaning to ______.
(A) however
(B) therefore
(C) in addition
(D) thus

Since the correct answer is (C), therefore, you should blacken circle D.

Look at the example: A B C D

A loss of fluid, the body draws water out of cells to restore the blood volume. As the water in the cells becomes further depleted, dehydration sets in.
